PROGRAM: CONSTRUCTION JOB ESTIMATOR PROGRAM

REGISTER NOW

Program Description:

Every construction job starts with an estimate. This program is focused for individuals that would like to enter the construction trade as a construction job estimator. The job of the construction job estimator is basically to analyze and quote the job by analyzing the following elements; materials, supply, amount and intensity of labor required. In this online program the topics that will be covered will be measurements, pricing, bidding, budgeting, closing the bid, and cost. At successful completion of the program the student will be awarded with a Certificate of Completion.
