PROGRAM: EKG & PHLEBOTOMY TECHNICIAN

Program Description:

The EKG and Phlebotomy Technician program offered by New Educare is designed for individuals that would like to pursue a career in the healthcare field as an EKG Technician and/or Phlebotomy Technician. In this program you will learn the clinical skills and theoretical knowledge of the EKG and Phlebotomy profession. The main skills that you will learn in the EKG Module are that of EKG also known as electrocardiography, and in the Phlebotomy Module are that of drawing blood also known as venipuncture & dermal puncture. At completion of the program the student will be awarded with a certificate of completion and be eligible to attempt the EKG Certification Exam and Phlebotomy Technician Certification Exam.
